INSTALLATION INSTRUCTIONS
AVC LI-G and AVC LI-T
2000-01 Lexus RX300

The *Clarion AVC L1* shroud is designed to replace the top portion of the factory center console of the Lexus RX300 for added rear seat entertainment. The shroud is specially designed to accommodate the *Clarion VMA6491 or VMA7191* video monitor, while retaining the factory appearance and appeal. Please read the instructions carefully before attempting the installation!

Console Disassembly

1. Slide open the top tray of the center console facing towards the front of the vehicle.
2. Carefully lift up on the front of the top lid, detaching the front clips from the bottom portion of the center console. After the front clips are free from the bottom portion, lift up on the back portion of the top lid just below the rear AC vents until the clips are free from the console.

Clarion Monitor Shroud Preparation and Mounting of the Monitor

1. Turn the *Clarion AVC L1* shroud upside down.
2. Attach the AC elbow vent extension on by using the (2) #6 screws (provid ed).
   Note: There are (2) pre-drilled holes on the legs on both sides of the shroud and on the AC elbow vent extension for alignment.
3. Mount the (6) provided spring clips to the 6 posts on the back of the shroud.
4. Mount the monitor into the shroud using the provided spacer and hardware from the monitor.
5. Carefully run the power and video cables to there predetermined locations. (i.e.: Ignition harness, radio harness, VCR, DVD, etc)
6. Test monitor for functionality, as well as, for color and brightness.

Console Reassembly

1. Place the *Clarion AVC L1* shroud on the top of the factory console, aligning the clips with the receiving holes.
2. Press down gently and evenly on the shroud until all of the clips are engaged.
